

Murad Garakhanov

Information Security GRC Specialist

+994 55 583 84 98 | garakhanov777@gmail.com | linkedin.com/in/murad-garakhanov | Baku, Azerbaijan

PROFESSIONAL SUMMARY

Detail-oriented Information Security GRC Specialist with hands-on experience in compliance documentation, SWIFT CSP audit support, and CIS Controls implementation. Proficient in Atlassian tools (Jira, Confluence), vulnerability management platforms, and AI-powered GRC ecosystems. Adept at assisting in regulatory audits for banking sector clients and developing security policies and procedures. Foundational knowledge in ISO 27001 and ITIL 4 frameworks. Eager to grow within a fast-paced security team.

PROFESSIONAL EXPERIENCE

Junior Information Security GRC Specialist · CYBERVISION *Oct 2024 – Present · Baku, Azerbaijan*

- Assisted in SWIFT Customer Security Programme (CSP) audit engagements for banking sector clients, supporting senior auditors throughout the assessment lifecycle.
- Prepared and maintained comprehensive GRC documentation including security policies, procedures, and compliance reports for banking institutions.
- Contributed to CIS Controls v8 gap analysis and control mapping activities, identifying areas of non-compliance and recommending remediation actions.
- Participated in internal and external audit processes, coordinating evidence collection and liaising with client stakeholders.
- Supported risk assessment activities aligned with ISO 27001 framework to evaluate organizational security posture.
- Utilized Atlassian Jira for task and project tracking; maintained and managed Knowledge Base in Confluence to support GRC team workflows and documentation.
- Operated Qualys Vulnerability Management platform to support vulnerability scanning, reporting, and remediation tracking.
- Administered KnowBe4 Security Awareness platform to support phishing simulations and employee security awareness training programmes.
- Leveraged AI tools, particularly within the Antigravity platform, to contribute to the development of an integrated GRC ecosystem, automating compliance workflows and enhancing reporting efficiency.
